

You're invited • Coffee with your representative June 6, 2019 • 6 p.m.

Coffee with your representative

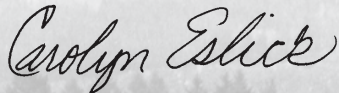

My job is to listen and help. That's why I've scheduled a meeting to talk about your concerns, comments and questions about state government. Please consider joining me for coffee:

Date: Thursday, June 6

Time: 6 p.m.

Where: The River House, 444 Avenue A, Index, 98256

I look forward to seeing you there!

Rep. Carolyn Eslick, 39th Legislative District

Good news for our communities!

As a member of the House Capital Budget Committee, during the 2019 session I helped secure funding for several projects in the 39th District, including two in Index.

District fire stations are responsible for protection and basic life support for the town of Index and the city of Gold Bar, as well as surrounding areas. With no landline or cellular service to the area surrounding the North Fork of the Skykomish River, citizens are without means to call for assistance from first-responders.

This year's capital budget allocates \$27,000 so Fire District #26 can install cellular service for the area. Another project funded for Index includes \$23,000 for water system improvements.

Bill idea becomes law

In November, a Snohomish fire district employee requested my help to change state statute. He wanted to continue servicing Index school buses and vehicles for the city of Monroe. That's why I sponsored the companion to **Senate Bill 5670**, recently signed into law by the governor, which lifts restrictions on interlocal agreements — potentially saving school districts, towns and cities money.
